About our company:

At L.K., we recognize Value, Performance and Reliability are essential for improving your bottom line. Our Quantum line of die casting machines, designed for the North American market, uses locally available electric and hydraulic components. Every machine we build for you will meet your strictest performance requirements and safety standards.

About our Parent Company - L. K. Machinery Company Limited:

L. K. Machinery the industry's largest and fastest growing company dedicated to providing advanced manufacturing solutions to die casters and injection molders worldwide.

L. K.'s lines of machinery produces hot and cold chamber Aluminum, Magnesium, and Zinc die casting machines from 12 to 4,500 tons, PT-Series plastic injection molding machines from 30 to 2,200 tons as well as trim presses and auxiliary equipment.

L. K. Machinery employs more than 3,000 people plus 34 independent representatives. More information about L. K. is available at www.LKTechnology.com and www.Quantum-online.com.
